Hi Blair,

The AIDS walk turns out to be on the list of City approved special events which means it's out of street closures jurisdiction to deny it. I have been talking to the event organizers and intend to set up a meeting with them, our office and the BID to make sure all of the community concerns are properly addressed.

Best,  
Anika

Diana,

May we get an update of the AIDS Walk? They never got back to street closure committee as was requested. We cannot have this street closure without their significant support in relocating resident vehicles, etc. Please let us know how we can stay on top of this!
